Project Notes

Central Industries were engaged to turn an architects sketch into a buildable design, and do so whilst meeting program and budget deadlines. Finished in time for opening on Australia Day, the new swimming centre is an excellent resource for Bayside Council residents. Bayside Council Administrator Greg Wright encouraged everyone to come down and try the new centre for themselves.

"We are excited that the Angelo Anestis Aquatic Centre is completed and within the \$24.3 million budget," he said.
"It's an important community asset and one that many residents have been looking forward to using again, and we are delighted and it's opened in summer for all to enjoy with FDC Constructions and Bayside Council having completed the project two months ahead of schedule without incident or injury to any worker".
