**Project Notes**

After the first sod was turned in April 2017, a dedicated team of builders and staff at Catholic Education Office has kept this project on budget and on time to open for the 31st January 2018, a record short time frame for a school of this size and complexity.  
 The NT Government's Education Minister the Honorable Eva Lawler said "To bring a school from planning to students arriving for school in under one year is a feat of special teamwork".  
 Central Industries is proud to have played our part in completing this state of the art school, on time and budget.
